

I would like to comment on the new broadcast known as Low Power FM. I feel it would be a great distress to many listeners if these new LPFM stations take priority over current FM translator services. There is much value in the national and regional services such as K-LOVE radio. K-LOVE serves me as a resident of my local community by giving constant positive encouragement through their message. I feel they are a great need in my life and are of great value to me, my family and numerous friends. I truly believe my local community would suffer tremendously if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. K-LOVE gives an enormous amount of spiritual uplifting and knowledge that is needed by their listeners, as well as local and World news reports and information. These things are a huge need. The service provided by K-LOVE is in the public interest not only because of all the listeners that are already touched by their programming, but also for those new listeners who will also be touched and changed forever.

Thank you for your time and consideration of these comments.

Sincerely,

Paula Richmond
